

Sick Policy

Hello Families!

As you know, early identification of potentially infectious disease can be essential for the protection of every child and teacher within the Preschool and Kids Ministries. Therefore, it is very important for parents to ensure that their children are free from any sign of illness for at least 24 hours (without the aid of medication) before bringing them to church.

Signs and symptoms of illness include, but are not limited to:

- Fever over 100 degrees
- Vomiting or diarrhea
- Productive cough
- Any unexplained rash or skin infection
- Pink Eye
- Green, runny nose
- Any communicable disease

Should a child become ill while attending Preschool or Children's Ministry, their parent/guardian will be contacted and required to pick up their child.

Thank you for helping us keep every child and teacher safe!

Stephanie Cline
Children's Ministry Director
